I got this project as part of the “Break Into the Fashion Industry” course by Glam Observer.

IN-STORE FLOW & GUEST JOURNEY

6:00–6:30 PM Arrival & Social Moment

Guests are welcomed with Maison Perrier-Jouët and begin the evening with a branded photobooth moment for social media.

6:30–8:00 PM Product & Art Experience

The Le 5 à 7 bag is positioned at the center, between works by Jason Mason and Vincent Fournier, creating a gallery-like focal point.

The atmosphere is further enhanced by an Anthony Vaccarello-curated playlist featuring Kitty Chicha and Emmanuelle Alt.

8:00–9:00 PM Dinner Closing

The evening ends with Sushi Park and a live chef-led dining experience, creating a refined close to an immersive luxury night.

LIMITED PRODUCT STRATEGY

The Le 5 A 7 bag was produced in a global run of 250 numbered units.

Each bag carries an embossed production number on the interior hand-signed Certificate of Authenticity from Anthony Vaccarello.

No online sales. No wholesale

250 units allocated to Rive Droite Paris exclusively

Priced at an 18% premium to the standard Le 5 a 7 bag.

Justified by the MIRUM-style bio-based exterior (0% plastic) and a soft-touch matte, limited production, and numbered edition, it positions the bag as a collectible.

Not Just a purchase.

Private event guests receive a tiered pre-order QR code granting early access to Le 5 à 7.

QR access unlocks 72 hours before public access opens for top VIC clients, 48 hours for regular VIC clients, and 24 hours for new VIP guests.

Access is first-come, first-served within each tier, which creates urgency and rewards clienteling loyalty based on spend level.

COMPETITOR ANALYSIS

Brand	Activation	Strength	Weakness	Opportunity for YSL
Louis Vuitton	Men's Spring 2024 Collection: golden Damier chequers, 24-hour Speedy World Tour, holograms,.	Global scale & brand recognition, innovative collaborations & creative directors, avant-garde experiential retail.	Too broad focus, product-focused rather than emotional experience, weak digital integration.	Laser focus on core identity, master of emotional branding, digital pioneer position.
Dior	30 Montaigne reopening, museum gallery, Dior café, exclusive boutiques, haute couture ateliers.	Strong brand heritage storytelling, immersive brand world, press-worthy luxury destination.	Too polished and traditional; lacks contemporary edge, slow execution and scaling.	YSL is bolder, more rebellious, and night-focused, weaving art/music into its DNA instead of depending primarily on heritage storytelling.
Chanel	Artisan workshops, haute couture ateliers, immersive embroidery and millinery exhibitions, and artisan incubator hub.	Timeless iconic codes, artisanal craftsmanship & métiers art, aspirational exclusivity & independence.	Too conservative, slow innovation, low cultural relevance.	Gender-fluid & nightlife identity , faster cultural relevance, art/music integration, and digital storytelling.
